

Gage Reading: 2.00 MLLW @ PILOT TOWN @ 1150
Sea Conditions: CALM, FLUFF (SAND WAVES)
Vessel Name: BLANCHARD
Survey Type: CONDITION, SB
Sounding Frequency***: LOW

Feet

0 500 1,000 1,500 2,000 2,500

NOTES:
Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane
Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 07-11).
Datum Relationships for gage 01525 as of July 2015:
0.0' NAVD88 = -0.3' MLLW = 3.20' MLG

Distances on the Mississippi River, above and below Head of Passes are shown
at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard.

2016 Aerial Photography data source: Precision Aerial Reconnaissance, LLC (1998 DOQQ in green)

Reference is N.O.A.A. Navigation Chart No. 11361.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding
location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz)
survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom
material. Low frequency accuracies may vary depending on channel conditions and fathometer
settings.

DISTRIBUTION LIABILITY
The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and/or product. The general existing condition of such activities and/or products is not guaranteed. Such activities and/or products are not intended to be used for any particular purpose. The user is responsible for the results of any application of the data to other than its intended purpose.
DATA CONSTRAINTS
Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging, Army Corps of Engineers actions to improve navigation, changes in hydrographical conditions which develop after the date of publication. This data is intended for use by the Army Corps of Engineers and its partners to develop plans and designs for navigation improvement projects. The data is not to be used for any other purpose. The data is provided "as is" without any warranties, expressed or implied, including but not limited to the warranties of merchantability, fitness for a particular purpose, and non-infringement. The user agrees not to represent that these data are the official version of the Government provided data. The user may not transfer these data to anyone other than the Government provided data without also transferring this Document. The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered valid for the general conditions existing at the time.
