

US Army Corps
of Engineers
District: CEMVN

Distribution Liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and includes the general existing condition. As such, the user is responsible for the results of any application of any portion of the data to other than its intended purpose.
Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging, Army Corps of Engineers actions, and changes in the hydrographic conditions which develop after the date of publication. This data is intended for use by the Army Corps of Engineers as a reference for engineering purposes only. The user agrees not to represent these data to anyone as either the Government provided data or to claim ownership of the data. The user also agrees not to transfer these data to anyone else without the express written consent of the Army Corps of Engineers.
