

Gage Reading: 0.8 MLLW @ PILOT TOWN @ 0930
 Sea Conditions: CHOPPY
 Vessel Name: OB-173
 Survey Type: CONDITION, SB
 Sounding Frequency***: LOW

0 500 1,000 1,500 2,000 2,500 Feet

NOTES:
 Horizontal Coordinate System: North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum: Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 07-11).
 Datum Relationships for gage 01525 as of July 2015:
 0.0' NAVD88 = -0.3' MLLW = 3.20' MLG

Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard.
 2016 Aerial Photography data source: Precision Aerial Reconnaissance, LLC (1998 DOQQ in green)
 Reference is N.O.A.A. Navigation Chart No. 11361.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz) survey data may penetrate through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

Distribution Liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and/or product. The general existing condition of such activities and/or products is not guaranteed. Such activities and/or products are not intended to be used for engineering specifications. The user is responsible for the results of any application of the data to other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging operations, subsidence, and changes in the hydrographical conditions which develop after the date of publication. This data is intended for engineering purposes only. The data is not intended for use in navigation or as other applications which require precise hydrographic data. The user agrees not to represent these data as other than Government provided data. The user may not alter this data or otherwise tamper with it. The user may not use this data without also understanding this Document.

Disclaimer: The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered b reproducible in the general condition existing at that time.
