US Army Corps of Engineers District: CEMVN

DISTRIBUTION LIABILITY The data represents the results of data collection/processing for a specific U.S. Army Corps of Engineers activity and product. The general existing condition of such activities and products is not guaranteed. As such, the user is responsible for the results of any application of any part of the data to other than its intended purpose.
DATA CONSTRAINTS Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging, Army Corps of Engineers actions as well as changes in the hydrographic conditions which develop after the date of publication. This data is intended for use by the Army Corps of Engineers and its contractors as well as other government agencies. The data may not represent the current hydrographic conditions without also consulting this document. The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered valid for the general conditions existing at that time.
