DISTRIBUTION LIABILITY The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and should not be used for general routing or other activities. The user is responsible for the results of any use of this data for other than its intended purpose.
Data Constraints Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging, Army Corps of Engineers actions, and changes in the hydrographic conditions which develop after the date of publication. This data is intended for use by the Army Corps of Engineers as a reference for planning purposes only. The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered reliable for the general conditions existing at that time.
