Gage Reading: 1.9 MLLW @ PILOT TOWN @ 1340
 Sea Conditions: CHOPPY
 Vessel Name: BLANCHARD
 Survey Type: CONDITION, SB
 Sounding Frequency***: LOW

Feet

NOTES:
 Horizontal Coordinate System:
 North American Datum of 1983 (NAD83), projected to the State Plane
 Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
 Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 07-11).
 Datum Relationships for gage 01525 as of July 2015:
 0.0' NAVD88 = -0.3' MLLW = 3.20' MLG

Distances on the Mississippi River, above and below Head of Passes are shown
 at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard.

2016 Aerial Photography data source: Precision Aerial Reconnaissance, LLC (1998 DOQQ in green)

Reference is N.O.A.A. Navigation Chart No. 11361.

** Shoal sounding per quarter per reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

US Army Corps of Engineers
District: CEMVN

DISTRIBUTION LIABILITY
 The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and/or mission. The general existing condition of such activities and/or missions is not specified. The user is responsible for the results of any application of the data to other than its intended purpose.
Data Constraints
 Hydrographic survey data is subject to change resulting in several factors including but not limited to dredging, Army Corps of Engineers actions to improve navigation, changes in hydrographical conditions which develop after the date of publication. This data is intended for use by the Army Corps of Engineers as a reference for planning purposes only. It is not to be used for navigation or surveying. The data is provided "as is" without warranty or guarantee of any kind. The user agrees not to represent these data to anyone as other than Government provided data. The user may not transfer these data onto another who is under contract with the Government to provide similar services. The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered valid for the general condition existing at that time.
