Distribution liability: The data represents the results of data collection processing by a specific US Army Corps of Engineers activity and reflects the general existing conditions. Such data is not necessarily survey grade or suitable for engineering specifications. The user is responsible for the results of any application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging, navigation, and changes in the river bed. The Army Corps of Engineers does not warrant or guarantee the hydrographic conditions which develop after the date of publication. This data is intended for U. S. Army Corps of Engineers' internal use only and shall not be used open to the public.
