

<u>LEGEND</u>			
—	Federal Navigation Channel	○	-10' and above
—	Federal Navigation Center Line	—	-10' to -20'
—	As-built Pipeline/Cable	—	-20' to -30'
.....	Unconfirmed Pipeline/Cable	—	-30' to -40'
—	Project Depth Contour	—	-40' to -45'
		—	-45' to -48.5'
		—	-48.5' to -55'
		—	-55' and below

NOTES:

Horizontal Coordinate System: North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum: Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 07-11). Datum Relationships for gage 01525 as of July 2015: 0.0' NAVD88 = -0.3' MLLW = 3.20' MLG.

Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard.

2016 Aerial Photography data source: Precision Aerial Reconnaissance, LLC (1998 DOQQ in green)

Reference is N.O.A.A. Navigation Chart No. 11361.

** Shoalest Sounding per quarter of Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

DISCLAIMER: The data represents the results of data collection procedures for a specific US Army Corps of Engineers active and inductive survey. The data is subject to change due to several factors including but not limited to dredging, changes in hydrologic conditions, and other surveying activities. The user is responsible for the results of any application of the data for other than its intended purpose. Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging, changes in hydrologic conditions, and other surveying activities. The data is provided as is and is not guaranteed to be accurate or complete. Any use of the data is at the user's own risk. The user agrees to indemnify the US Army Corps of Engineers for any damages resulting from the use of the data.
