DISCLAIMER
 Accuracy Constraints: The United States Government furnishes these data and the recipient corps and uses them with the express understanding that the US Government makes no warranties, expressed or implied, concerning the general accuracy of such information and that the recipient corps is solely responsible for its use. The United States Government shall not be liable for any particular purpose of the information and the data furnished. The United States shall be under no obligation to furnish further data or to furnish any information or data to any person by reason of any agreement or understanding entered into between the United States and the recipient corps unless the recipient corps agrees to pay to the United States the amount of compensation which the United States deems reasonable for the services rendered. The recipient corps may not represent these data as other than Government provided data. The recipient corps may not transfer these data or information without also transferring this Disclaimer.

The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered reliable for the general condition existing at the time. It does not purport to show all details of the hydrographic conditions which develop after the date of publication. This data is intended for use by the Army Corps of Engineers and its contractors and is not to be used except by those who have been specifically authorized to do so.
