

Gage Reading: 1.7 MLLW @ HEAD OF PASSES @ 1040  
 Sea Conditions: CALM  
 Vessel Name: BEAUVAIS  
 Survey Type: CONDITION, SB  
 Sounding Frequency\*\*\*: LOW

NOTES:  
 Horizontal Coordinate System: North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.  
 Vertical Datum: Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 12-16).  
 Datum Relationships for gage 01545 as of March 2020:  
 0.0' NAVD88, 2009.55 ± 0.32' MLLW = 3.18' MLG  
 Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.  
 The location of navigation aids are base on and provided by the U.S. Coast Guard.  
 2016 Aerial Photography data source: Precision Aerial Reconnaissance, LLC (1998 DOQQ in green)  
 Reference is N.O.A.A. Navigation Chart No. 11361.

\*\* Shoalest Sounding per Quarter per Reach.  
 \*\*\* High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

Distribution liability: The data represents the results of data collection processing by a specific Army Corps of Engineers activity and reflects the general existing conditions. Such data is not necessarily survey grade or suitable for engineering specifications. The user is responsible for the results of any use of the data for other than its intended purpose.  
 Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including, but not limited to dredging operations, subsidence, and new surveys. The Army Corps of Engineers does not accept responsibility for changes in the hydrographic conditions which develop after the date of publication. This data is intended for U.S. Army Corps of Engineers hydrographers. The data is not to be used open to the public.
