US Army Corps of Engineers District: CEMVN

Distribution liability: The data represents the results of data collection processing by a specific US Army Corps of Engineers agency and includes the general existing conditions. Such results are not necessarily suitable for any particular purpose. The user is responsible for the results of any application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including, but not limited to dredging operations, subsidence, and changes in the river channel. Army Corps of Engineers accords no responsibility for changes in the hydrographic conditions which develop after the date of publication. The data is intended for U.S. Army Corps of Engineers hydrographer use only and shall not be used open to the public.
