Gage Reading:	2.9 MLLW @ LIGHT-14 @ 1310
Sea Conditions:	CALM
Vessel Name:	BLANCHARD
Survey Type:	CONDITION, SB
Sounding Frequency***:	LOW

Feet
0 500 1,000 1,500 2,000 2,500

NOTES:

Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 07-11).
Datum Relationships for gage 01625 as of July 2015:
0.0' NAVD88 = 0.39' MLLW = 3.89' MLG

Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard.

2016 Aerial Photography data source: Precision Aerial Reconnaissance, LLC (1998 DOQQ in green)

Reference is N.O.A.A. Navigation Chart No. 11361.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consoldiated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

District: CEMVN

Distribution Liability: The data represents the results of data collection efforts at a point in time in a dynamic environment activity and indicates the general existing conditions. As such, it is only valid for its intended use; content, time and accuracy of any application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change due to natural shoaling and scouring processes. Natural shoaling activity and natural shoaling and scouring processes. The U. S. Government makes no warranties, expressed or implied, concerning the accuracy, completeness, reliability, or suitability of the information and the data furnished in the form of any of the application of the data for other than its intended purpose. The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered to represent the general condition existing at that time.

DISCLAIMER
Access Constraints: The United States Government furnishes this map and data and by accepting these materials, you agree to the following understanding that the US Government makes no warranties, expressed, or implied concerning the accuracy, completeness, reliability, or suitability of the information and the data furnished. The United States shall be held harmless from any liability resulting from improper or incorrect use of the information and data furnished and made thereof. These data belong to the Government. Therefore the recipient fully agrees not to represent these data to anyone as other than government data. Also, the recipient shall not transfer these data to others without also transferring this Disclaimer.
