Gage Reading:	2.3 MLLW @ LIGHT-14 @ 0955
Sea Conditions:	CHOPPY
Vessel Name:	BLANCHARD
Survey Type:	CONDITION, SB
Sounding Frequency***:	LOW

Feet
0 500 1,000 1,500 2,000 2,500

NOTES:

Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 07-11).
Datum Relationships for gage 01625 as of July 2015:
0.0' NAVD88 = 0.39' MLLW = 3.89' MLG

Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard.

2016 Aerial Photography data source: Precision Aerial Reconnaissance, LLC (1998 DOQQ in green)

Reference is N.O.A.A. Navigation Chart No. 11361.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

US Army Corps of Engineers
District: CEMVN

Distribution Liability - The data represents the results of data collection and analysis performed by professionals experienced in hydrographic survey activity and indicates the general existing conditions. As such, it is only valid for its intended use; content, time and accuracy of any of the application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change over time due to environmental factors such as shoaling activity and natural shoaling and scouring processes. The U. S. Government makes no warranties, expressed or implied, as to the accuracy of the data furnished on this map after the date of publication. This data is intended for U. S. Army Corps of Engineers' internal use. Reuse by external sources is done at the sole discretion and risk of the entity using it.

DISCLAIMER
Access Constraints: The United States Government furnishes this map and the data contained therein to the user/agency on the understanding that the US Government makes no warranties, expressed, or implied concerning the accuracy, completeness, reliability, or suitability of this information for any particular purpose. The information and the data furnished. The United States shall be under no liability whatsoever to any individual or agency for any direct or special damage resulting from the use of any inaccurate or incomplete information made thereof. These data belong to the Government. Therefore the recipient fully agrees not to represent these data to anyone as other than government data or in any way that may misrepresent these data to others without also transferring this Disclaimer.

The recipient agrees to indemnify and save the United States harmless from any damages resulting from the use of misrepresentation of these data by the recipient or by third parties obtaining data from the recipient. The recipient further agrees to assure that any third party obtaining these data agrees to the same indemnification of the United States.

The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered to represent the general conditions existing at that time.
