Gage Reading: 2.2 MLLW @ LIGHT-14 @ 1355
Sea Conditions: CHOPPY
Vessel Name: BLANCHARD
Survey Type: CONDITION, SB
Sounding Frequency***: LOW

A scale bar representing distance in feet. The bar is divided into segments by vertical tick marks. The labels indicate distances of 0, 500, 1,000, 1,500, 2,000, and 2,500 feet. The first 500 feet are marked with black segments, while the remaining 2,000 feet are marked with white segments.

OTES:

Coordinate System:
Datum of 1983 (NAD83), projected to the State Plane
Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

shown in feet and indicate depths below Mean Lower Low Water (MLLW, 07-11).
ships for gage 01625 as of July 2015:

39 MLLW = 3.89 MLG
Mississippi River, above and below Head of Passes are shown

Navigation aids are base off and provided by the U.S. Coast Guard.

Photography data source: Precision Aerial Re

A.A. Navigation Chart No. 11361.

frequency (200 kHz) survey data represents the first signal return at a sounding. It may include suspended solids, known as "fluff", if present. Low frequency (24 kHz) sound generally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Frequency accuracies may vary depending on channel conditions and fathometer settings.
