Gage Reading:	0.7 MLLW @ LIGHT-14 @ 1205
Sea Conditions:	CALM, FLUFF
Vessel Name:	BLANCHARD
Survey Type:	CONDITION, SB
Sounding Frequency***:	LOW

Feet
0 500 1,000 1,500 2,000 2,500

NOTES:

Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 07-11). Datum Relationships for gage 01625 as of July 2015:
0.0' NAVD88 = 0.39' MLLW = 3.89' MLG

Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard.

2016 Aerial Photography data source: Precision Aerial Reconnaissance, LLC (1998 DOQQ in green)

Reference is N.O.A.A. Navigation Chart No. 11361.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

US Army Corps of Engineers
District: CEMVN

Distribution Liability: The data represents the results of data collection and processing efforts at a point in time. As such, it is only valid for its intended use, content, time and accuracy and should not be used for any other purpose. The release of any of the application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change due to environmental conditions such as shoaling, dredging activity and natural shoaling and scouring processes. The U. S. Army Corps of Engineers makes no warranty as to the accuracy in the hydrographical conditions which develop after the date of publication. This data is intended for U. S. Army Corps of Engineers' internal use. Project tolerance based on the survey specs.

DISCLAIMER
Access Constraints: The United States Government furnishes these data and information with the understanding that it does not assume any liability arising from its use by you. The United States Government makes no warranties, expressed or implied concerning the accuracy, completeness, reliability, or suitability of these data and information and the data furnished. The United States shall be held harmless from any liability resulting from improper use of these data. These data belong to the Government. Therefore the recipient fully agrees not to represent these data to anyone as other than data received from the Government. Any user who redistributes these data to others without also transferring this Disclaimer.

The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered to represent the general condition existing at that time.
