

Gage Reading: 1.0 MLLW @ LIGHT-14 @ 1130  
 Sea Conditions: CALM  
 Vessel Name: BEAUVAIS  
 Survey Type: CONDITION, SB  
 Sounding Frequency\*\*\*: LOW

0 500 1,000 1,500 2,000 2,500 Feet

**NOTES:**  
 Horizontal Coordinate System:  
 North American Datum of 1983 (NAD83), projected to the State Plane  
 Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:  
 Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 07-11).  
 Datum Relationships for gage 01625 as of July 2015:  
 0.0' NAVD88 = 0.39' MLLW = 3.89' MLG

Distances on the Mississippi River, above and below Head of Passes are shown  
 at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard.  
 2016 Aerial Photography data source: Precision Aerial Reconnaissance, LLC (1998 DOQQ in green)

Reference is N.O.A.A. Navigation Chart No. 11361.

\*\* Shoalest Sounding per Quarter per Reach.

\*\*\* High frequency (200 kHz) survey data represents the first signal return at a sounding  
 location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz)  
 survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom  
 material. Low frequency accuracies may vary depending on channel conditions and fathometer  
 settings.

**DISCLAIMER:**  
 Access Constraints: The United States Government furnishes these data and the recipient Corps and uses them with the express understanding that the U.S. Government makes no warranties, expressed or implied, concerning the general accuracy of such, usefulness, reliability or suitability or suitability for any particular purpose. The United States shall be under no liability in respect of errors which may appear in these data. Any person using these data does so at his own risk. The recipient agrees to report these data to anyone that he or she may have given them and to inform the Government provided data to him or her of any changes made to the data without also informing this Disclaimor.  
 The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered reliable for the general conditions existing at that time. It is not to be used for hydrographic purposes.

**Data Constraints:** Hydrographic survey data is subject to change rapidly due to several factors including burial, erosion, or dredging. Army Corps of Engineers does not guarantee the accuracy of these data over time. These data are intended for use in engineering applications. The data is not intended for use in navigation or hydrography applications. The data is provided for use in engineering applications only.

**NOTES:**  
 The data represents the results of data collection processing for a specific U.S. Army Corps of Engineers activity and includes the general existing conditions. Such, specifications, the user is responsible for the results of any application of the data to other than its intended purpose.
